

BENCHMARK

Architectural Shapes

Transform exterior building designs when you combine **ARCHITECTURAL SHAPES** by **BENCHMARK FOAM** with Exterior Insulation and Finish Systems (EIFS). Easily add intricate architectural accents and decorative finishes to a standard building, improving curb appeal and enhancing property visibility. With Benchmark Foam you can create first-rate designs at a fraction of the cost of conventional techniques. Benchmark Foam is a Midwestern manufacturer with the only **On-Time Guarantee** in the industry. You can have confidence in our service, quality and value.

 **BENCHMARK FOAM INC.**

Quick response is our guarantee.

Exterior Insulation and Finish Systems (EIFS) are multi-layered exterior wall cladding systems composed of an EPS insulation substrate and a textured finish application. The versatility and easy fabrication of the system makes it ideal for complex yet cost-effective designs, while providing insulating benefits. The highly durable and decorative finish ensures a high-quality appearance for years to come.

BENCHMARK FOAM ARCHITECTURAL SHAPES

EYE-CATCHING ACCENTS

Benchmark Foam specializes in fabricating the accent and design elements that set your building apart. Your design can include architectural elements such as decorative bands, quoins, corbels, cornices, arches, keystones, dentils and columns, bases and caps. Benchmark Foam has the design and fabrication experts to help you get the perfect look for your building.

DESIGN FLEXIBILITY

Because we specialize in decorative EPS shapes, when you choose Benchmark Foam you have unlimited design flexibility. Combine architectural shapes with EIFS textures and colors to create décor styles such as craftsman, southwest, modern or contemporary. You can even integrate artwork into your design.

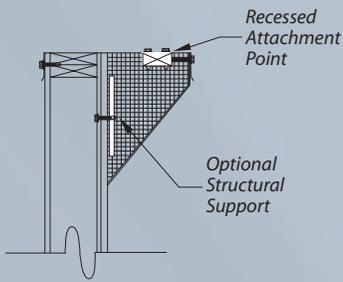

Benchmark Foam architectural shapes can be fabricated into any design or style.

EIFS and architectural designs can be applied to new or existing structures.

Call Benchmark Foam toll free at 800-658-3444.

INTEGRATED CONSTRUCTION

Benchmark Foam can integrate structural backing or recessed attachment points into your accents, making installation easy. We work directly with you to ensure that our substrate will be perfect for your application. Benchmark Foam has the expertise you need to complete a quality project.

ENVIRONMENTALLY CONSCIOUS

Because caring for the environment is important to us, Benchmark Foam does not use formaldehyde, CFCs, HFCs or HCFCs as blowing agents. You can be confident in the environmental safety of our product. Benchmark Foam also recycles by accepting used, clean, dry EPS to remanufacture into 100 percent recycled products.

On-Time Guarantee:

*Benchmark Foam knows that your business depends on our product arriving on time. Our service response is so dependable we back it with **Benchmark Foam's On-Time Guarantee**. Product will arrive by the agreed-to date or we will discount our invoice 10 percent. We work to accommodate customer needs, giving you confidence with every order, even if it needs to be rushed. And we do not have truckload quotas, so no matter how large or small, your product will be shipped on time.*

Whether you want to add complex accents, create pillars that look like stone or apply artwork to your design, architectural shapes from Benchmark Foam are an ideal choice.

BENCHMARK FOAM ARCHITECTURAL SHAPES FOR YOUR NEXT PROJECT:

- ✓ Apply to new construction or retrofit existing structures
- ✓ Create complex yet cost effective accents or decorative designs
- ✓ Achieve the look of stone, stucco or concrete at a fraction of the cost of conventional materials
- ✓ View our website at BenchmarkFoam.com to download from a selection of previously designed shapes

Combining architectural shapes from Benchmark Foam with standard EIFS applications guarantees an attractive and high quality finish for any building project. Distinguish your building designs and create eye-popping appeal with architectural shapes from Benchmark Foam.
