

PITCHING MOUND

by *Benchmark Foam*

Inexpensive, durable alternative to traditional mounds

Save association costs by choosing an inexpensive alternative to traditional pitching mounds. Made of coated, high-quality, high-density expanded polystyrene (EPS) foam, these mounds offer exceptional durability in a lightweight package.

Benefits:

- Easily turn a softball field into a baseball diamond
- EPS core protected by polyurea hardcoat for long-lasting durability and unlimited play
- Suitable for indoor or outdoor applications
- Spike-resistant turf adds to rigidity of mound while providing better foot traction
- Lightweight materials allow for easy mobility
- Includes four *removable* handles for simple shifting and transporting
- Weather resistant with little to no maintenance
- Designed with player safety in mind, mounds will retain its uniform shape

Specifications:

- Slope determined by mound size, meeting game regulation requirements. Adult slope drops 1" per ft
- Can customize to specific sizes
- Optional anchors help secure mound to ground
- Turf available in green or clay color
- All materials made in the U.S.

Youth Mound	Adult Mound
6" x 6' x 10'	10" x 8' x 12'
\$1880.00*	\$2200.00*
