See what our customer's have to say:

"Benchmark Foam's service is great. They're always willing to do what needs to be done."

"As expected, Benchmark delivered on time and satisfied a very particular

Safe Room Storm Shelters with ICFs

Severe weather protection by Benchmark ICF concrete walls

Government agencies and homeowners alike are beginning to act on safety concerns that arise during tornado activity. Some governing bodies have passed legislation that require certain new public buildings include a [Safe Room](#) to keep patrons protected when severe weather strikes. Private homeowners are also taking measures....[read more here.](#)

EPS: a cost-effective alternative to XPS

Meets requirements for sub-slab & perimeter projects

customer."

"We were impressed with the quick delivery and plan to use it again."

High Density expanded polystyrene (EPS) from Benchmark Foam is a commendable candidate for sub-slab and perimeter insulation applications.

Offering the same compressive strength as Owens Corning's F250 and Dow's blue board, Benchmark's High Density provides comparable physical properties - but always at a lower price. [Click here to read more.](#)
